AGP-1000 New Generation of Access Gate

Roseland, NJ – Amano is introducing its latest Access Control gate, the AGP-1000. The Amano AGP-1000 Series Gate incorporates new philosophy in drive technology. The DC Direct drive gear-motor addresses the requirements of both the residential and commercial Access Control markets. Designed for easy installation and simple parallel communications with other access control equipment, the AGP-1000 Series is the perfect choice for simple entry and/or exit access control applications where durability and dependability count.

Some of the features include:

- Utilizes Gentle Touch™ safety protection system
- Large, cabinet-style design
- DC direct drive gear-motor
- Selectable “Auto-Up” under power failure
- Plug-in vehicle detector
- 12’ left hand, 12’ right hand, and 16’ left hand models available
- Swing, sliding or tandem gated lane configurations
- Variable speed control provides smooth operation
